OBJECTIVE

Full-stack software developer with hands-on experience building production-style web applications using Node.js, Express.js, MySQL, MongoDB, and JavaScript (ES6+), backed by a strong foundation in Data Structures & Algorithms using Java. Proven ability to design and implement secure, scalable systems featuring RESTful APIs, session and token-based authentication, and role-based authorization. Seeking a Software Developer role to deliver high-quality, maintainable solutions and drive measurable impact within an engineering team.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES Java (Data Structures & Algorithms), JavaScript (ES6+)	**FRONTEND DEVELOPMENT** HTML5, CSS3, Bootstrap, Responsive Web Design
BACKEND DEVELOPMENT Node.js, Express.js	**DATABASE TECHNOLOGIES** MongoDB, MySQL, Database Management Concepts
WEB DEVELOPMENT DOM Manipulation, REST APIs, JSON, Browser Storage	**TOOLS & PLATFORMS** Git, GitHub, VS Code, Microsoft Excel, MS Office
IT SUPPORT & NETWORKING Network Troubleshooting, System Administration, Technical Support	**SOFTWARE ENGINEERING** Data Structures & Algorithms (Java), SDLC, Agile, Debugging, Testing
SOFT SKILLS Problem Solving, Teamwork, Communication, Time Management	

CERTIFICATIONS

- SQL and Database Management (View Certificate)
- JavaScript Algorithms and Data Structures (View Certificate)

WORK EXPERIENCE

IT Supervisor (View Experience letter)
NSEIT Ltd. | *2018 - 2024*

- Worked as IT Supervisor after graduation, handling IT operations, networking, and hardware support.
- Managed network setup, configuration, and troubleshooting to ensure smooth IT operations.
- Installed, maintained, and repaired computer hardware and peripheral devices.
- Provided technical support and system administration to end users.

PROJECTS

College Admission System (View Repository) (View Project)

- Built a College Admission System with Node.js, Express.js, MySQL, and EJS to manage applications, admissions, students, and fees.
- Implemented full CRUD operations for handling student applications, admissions, and fee records.
- Implemented session and token-based authentication and role-based authorization to secure access across the application.
- Designed and integrated REST APIs to connect the frontend with backend services and the MySQL database.

MeetRoom – Interview & Meeting Platform (View Repository) (View Project)

- Built an interview and meeting platform with Node.js, Express.js, MySQL, EJS, and Socket.IO (MVC) featuring a session scheduling dashboard and real-time room chat.
- Developed an email invite flow to invite multiple candidates per session, with join URL and meeting code, plus account-free guest joining by name.
- Added a host-only chat panel option showing which guest candidates have joined and their live count.

EDUCATION

Master of Computer Applications (MCA)
Dr. A.P.J. Abdul Kalam Technical University (AKTU) | *Expected Graduation: 2027*

Bachelor of Science (Physics & Mathematics)
Chhatrapati Shahu Ji Maharaj University, Kanpur | *2014 - 2017*
